WELCOME MESSAGE FROM PRESIDENT OF CoR AND MyRAD

Professor Dr Norlisah Mohd Ramli

President
College of Radiology,
Academy of Medicine of Malaysia
2022-2024
&
President
Malaysian Society of Radiologists
2022-2023

Assalamualaikum,

Dear colleagues and friends,

I welcome you to this exciting conference that celebrates the intertwining relationship between foundation and innovation in medical imaging.

The foundation of medical imaging lies in the human desire to understand the human body and its function. Advancements in technology have allowed us to go beyond anatomical visualisation towards innovative approaches to functional medical imaging that can identify and diagnose diseases earlier and with greater accuracy than ever before. The combination of foundation and innovation has led to incredible healthcare breakthroughs, improving outcomes and decreasing mortality. It has enabled doctors to identify previously difficult or impossible conditions and has given patients and their families new hope for better health. However, this is just the beginning as we continue to build upon the foundation of medical imaging and explore new and innovative approaches. We have the potential to revolutionise the way we approach healthcare.

Much effort will have gone into the planning of MCOR 2023 and the MyRad2, which will be held in Connexion Conference & Event Centre (CCEC), Kuala Lumpur from the 21st to 23rd of July 2023. We are very excited about the current events where we will launch the national curriculum, Train the Trainers (ToT) and our international collaboration with the Korean Society of Radiology and the Asian Oceania Society of Radiology.

I'm thrilled to be part of this event and look forward to the exciting discussion and discoveries that will take place at MCOR 2023 and MyRad2.

To our international colleagues reading this message, Malaysia is ready to welcome all of you to our wonderful country.

With the affordable exchange rates and no travel restriction, we hope to make it back into your bucket list of places to discover in 2023.

Come, experience our culture and cuisine and don't forget to bring your family along

We welcome you to explore Malaysia and discover our beautiful country and all it offers.

WELCOME MESSAGE FROM MCOR 2023 ORGANISING CHAIR

Dr Farhana Fadzli

Organising Chair
Malaysian Congress of Radiology 2023

Warmest greetings to all!

It is with much anticipation that we present to you this first announcement for Malaysian Congress of Radiology 2023 which returns to Kuala Lumpur. Please ensure that you save the date from the 21st to 23rd of July 2023.

Building further on last years theme of Precision Imaging, this year our focus will be on Intertwining Foundation with Innovation with the aim of targeting all levels in the radiology fraternity, from trainees to senior radiologists. Under the term foundation we will cater for trainees and those preparing for professional exams, as well as refreshers for radiologists. We will also provide a focus on continuing radiology education with many SIGs coming together to present the latest advances and progress in the field of radiology. Lastly, we also hope to demonstrate Innovation in radiology with the help of workshops and focus sessions in order to improve efficiency in our workplace. Therefore the objective is to interwine these themes together for seamless assimilation of knowledge in a short 3 day time period.

Radiology trainees will have dedicated sessions to help in their exam preparation (MRad and FRCR), with many experienced examiners and lecturers comprising the team for ExamPrep.

MCOR has always been a platform for sharing research projects, and it is no different this year. We hope that everyone will submit their abstracts for this purpose. There will be prizes for Best Free Paper Oral Presentation and Best Poster Presentation. Poster Presentation will now be expanded into electronic and live formats.

The pursuit for the title of CoR Dato' Samad Quiz winner continues in MCOR 2023. The quiz has proven to be one of the highlights of MCOR, with friendly inter-university rivalry between radiology trainees at its core and an entertaining learning opportunity for all participants. We call upon all eligible universities to select their teams early and start training for this engaging quiz.

The Organising and Scientific Committee will do our utmost to prepare a fulfilling and interesting programme for all attending.

We welcome all of you to MCOR 2023!

IN JUMMEC**

**Deadline:
30th April
2023**

The scientific committee welcomes the submission of scientific abstracts. Authors are invited to submit abstracts in the following areas of interest:

- **Body Imaging**
- **Interventional Radiology**
- **Breast Imaging**
- **Molecular Imaging**
- **Cardiac Imaging**
- **Musculoskeletal Imaging**
- **Chest Imaging**
- **Neuroradiology**
- **Emergency & Informatics**
- **Oncology**
- **Paediatrics**
- **Head & Neck**

All abstracts are to be submitted online. Final forms of presentation can be in any of the following format:

- **Oral Presentation**
(6 minutes + 2 minutes Q&A with ppt slides)
- **E-Poster Presentation**
(No live presentation onsite)
- **Live Poster Presentation**
(3 minutes live presentation with your e-poster)

There is no limit to the number of abstracts you may submit, but you should not submit on the same study / data set to be presented in more than one format.

All abstracts are to be reviewed by the Scientific Committee. The committee reserves the right to decide on the final form of presentation.

The presenting author of successful abstracts must complete his/her registration for the congress as a delegate before the 31st May 2023 to present his/her work during the congress.

Abstract Guidelines:

- Abstract must be submitted in English.
- The font of the abstract should be in Calibri, 12 pt and double spacing.
- No encore abstracts are allowed.
- Please specify the abstract title.
- The title must be in capital letters and is limited to a maximum of 640 characters.
- Please provide the details of the co-authors (names, affiliations). Ensure that all author information is included and entered correctly.
- Please provide 3-5 keywords for your abstract.
- Please provide the abstract body text. The abstract body is limited to a maximum of 250 words for studies/research which is approximately 1600 characters. For case report, the abstract body is limited to 150 words.
- The body must be divided into each: Format of content to follow: -

Studies/Research	Case Report
Background	Introduction, Report and Conclusion all in one paragraph
Methodology	
Results	
Conclusion	

The Objective and Conclusion need to be consistent with those in the main text and should use the same wording. The results should present the main outcomes of the study using specific numerical data (e.g., absolute numbers and/or rates) with appropriate indicators of statistical uncertainty, such as 95% confidence intervals or p values. P values should never be presented alone without the actual data that are being compared.

Do not use reference citations in the abstract. Abbreviations should be minimized and, if used, must be defined within the abstract by full terminology followed by abbreviation in parenthesis.

For medical terms such as proper nouns, generic names of medicines, and units of measurement, use the original term. The use of acronyms and abbreviations is discouraged and should be kept to a minimum. When used, they are to be defined where first used, followed by the acronym or abbreviation in parentheses. Measurements and laboratory values should be in accordance with the International System of Units (SI).

Ensure correct use of the terms sex (when reporting biological factors) and gender (identity, psychosocial or cultural factors), and, unless inappropriate, report the sex or gender of study participants, the sex of animals or cells, and describe the methods used to determine sex or gender. If the study was done involving an exclusive population, for example in only one sex, authors should justify why, except in obvious cases (e.g., prostate cancer). Authors should define how they determined race or ethnicity and justify their relevance.

The names and locations (city and state or country) of manufacturers of equipment and non-generic drugs should be given.

Ensure that all changes, corrections, and proofreading have been carried out before submission.

Notification of Acceptance

- Review of abstracts will take 2 weeks from the abstract submission deadline.
- All abstracts will be reviewed by the Scientific Committee. The Committee reserves the right to select the abstracts and assign the sessions and final format of presentation. The decision of the Committee is final.
- Results will be announced by 15th May 2023.
- All accepted abstract presenting authors MUST complete his/her registration for the congress as a delegate before the 31st May 2023 to present his/her work during the congress.
